## Leschaco implements its next-generation Transport Management System

Dear Customer,

we would like to inform you that [Leschaco](#) (Lexzau, Scharbau GmbH & Co. KG) has selected [E2open](#), a leading network-based provider of a cloud-based, mission-critical, end-to-end supply chain management platform, as its next-generation Transport Management System partner. E2open's web-based TMFF (Transportation Management for Forwarders) intelligent application will serve as Leschaco's global operational backbone and will be deployed at all of Leschaco's 73 locations in 23 countries around the world in various stages.

Leschaco sought a solution with a richness of deep functionality to run its air, sea, and overland freight that could also integrate many of its own solutions and other applications key to the logistics service provider's operations.

"We have come to the realisation that E2open is the ideal partner for Leschaco from a software capability point of view as well as from a cultural fit," says Constantin Conrad, CDO of Leschaco. "We found a reliable partner that will support us in this change and along our business needs in the future," added Jörg Conrad, CEO of the Group of Companies.

E2open's modern, web-based application provides Leschaco with enhanced functionality to optimize operational efficiencies and increase productivity. The cloud-based application, hosted by E2open, is a global system that supports all regions. Over the long-term partnership, E2open will support Leschaco's goals to continue to automate and streamline processes, increase flexibility to adapt to change, and enhance visibility and tools to optimize its customers' experience.

"We are delighted that Leschaco has selected E2open as a strategic partner along with our best-in-class forwarding solution to support their digital transformation and future growth," says Ron Kubera, Sector President, Distribution for E2open. "The trust and cultural alignment between our organisations is evident; the cooperation has been outstanding as we engage in a strategic partnership aimed at sustainable and competitive value for Leschaco for years to come."

### About E2open

At [E2open](#), we're creating a more connected, intelligent supply chain. It starts with sensing and responding to real-time demand, supply and delivery constraints. Bringing together data from customers, distribution channels, suppliers, contract manufacturers and logistics partners, our collaborative and agile supply chain platform enables companies to use data in real time, with artificial intelligence and machine learning to drive smarter decisions. All this complex information is delivered in a single view that encompasses your demand, supply, logistics and global trade ecosystems. E2open is changing everything. *Demand. Supply. Delivered.*™ Visit [www.e2open.com](http://www.e2open.com).

Kind regards

**Leschaco (Lexzau, Scharbau GmbH & Co. KG)**

Kap-Horn-Str. 18 | 28237 Bremen, Germany
