

Leschaco Logistica S.A.S. - Free Trade Zone

The Free Trade Zone is the geographical area delimited within the national territory, where industrial activities of goods and services, or commercial activities, are carried out, under special regulations on tax, customs, and foreign trade matters. Goods entered into these zones are considered outside the national customs territory for the purposes of taxes on imports and exports. The introduction of goods from other countries into the Free Trade Zone by a user won't be considered as an import and will only require that the goods appear on the transport document consigned to a user of the zone, or that the transport document is endorsed, in ownership or in procurement in favor of one of them, depending on whether or not there is a transfer of ownership of the merchandise.

Advantages:

- The market can be tested before entering Colombia
- No payment of taxes in the Free Trade Zone
- Immediate availability of goods in the region
- Nationalizations in days by the importer who buys in Colombia

Leschaco Logistica is present in the Free Trade Zones of Zona Franca Bogotá, Zona Franca la Candelaria Cartagena, and Zona Franca Intexzona, among others.
